----- This Month's Astrophoto-----  
From John O'Neal

"It was semi-clear this morning and I was able to get a brief glimpse of Nova Sco-2007 through light clouds. I was hoping to capture the 2nd Nova also, but it just wasn't clear enough with the 2nd being abt 8th mag, lower to the horizon and in deep clouds."

"I found it odd that there were wires in the photo. After all, I wasn't shooting anywhere near the "POLE.""

----- Upcoming Programs -----
